

7.6 gr/Dn

ALFA COMPACT ABRASSION HOTMELT

Braided net produced with High Tenacity Polyethylene fibers of 7.6 gr/Dn.
Ideal for fishing in very rocky and abrasive seabeds.

It has the characteristics of the Alfa Compact Abrasion but adds a particular feature: extreme rigidity and maximum stability in mesh and knot. This is achieved by applying to the net the treatment **EuroRed HOTMELT**.

PROPERTIES

TENACITY	○ ○ ○ ● ○	7.6 gr/Dn
ABRASSION RESISTANCE	○ ○ ○ ○ ○ ●	Extreme
MATERIAL	Polyethylene + HOTMELT
